

## TIPS AND TRICKS AND WHAT'S NEW FOR 2021

1. Bulk update due dates on assignments page

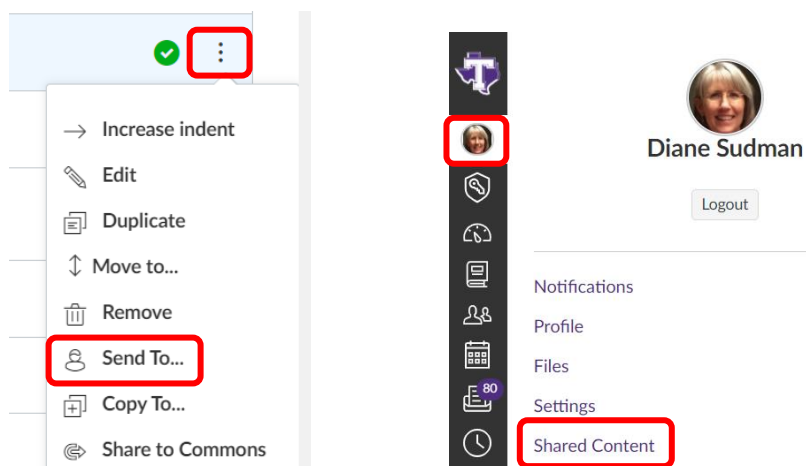

2. We have a new Rich Content Editor. Here's where to find commonly used items.

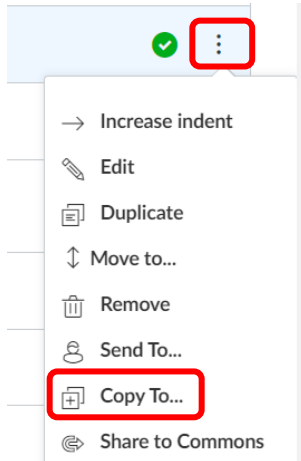

3. Use new GLASSES ICON on the upper right corner to check student view on ANY page.  
If you do not see the icon on a page or area then it is hidden from students.

4. Easily share content with colleagues. Find content shared with you under your **Profile**.

5. Easily copy from one course to another

6. Have Canvas scan all links in your course and list the ones that are broken.

Settings / [Validate Links in Content](#)

7. Find and restore deleted items.

Go to **Home** in course. At the end of the URL type **/undelete** and **Enter**.

 <https://tarleton.instructure.com/courses/82/undelete>

8. Use **Quickly tools** to batch post announcements or add content to multiple courses.

Home / [Quickly Course Tools](#)

9. Check out the new training topics and information for Spring!

[CEE Calendar of Training Events](#)
