# HOW TO SHARE THE DOCUMENT CAMERA VIA ZOOM

Created by Callie J. Price ©

**Step 2:** Select the tab that says **"Advanced"**.

**Step 1:** Select the **"Share Screen"** tab from the Zoom meeting control bar.

Portion of Screen

Music or Computer Sound Only

Content from 2nd Camera

**Step 3:** Choose the image of the doc cam titled **"Content from 2nd Camera"**. Then click **"Share"**. This will bring the doc camera into view via the Zoom meeting screen.

**Step 4:** When you are finished with the doc camera and ready to return to your main screen, select the **"Share Screen"** tab again from the Zoom meeting control bar.

**Step 5:** From the **"Basic"** tab, select the **"Screen"** option then click **"Share"** to return to the main screen.

**General Tips**

It is important that you share the doc camera via Zoom so that students on Zoom and students in the classroom can view the same doc camera screen. Do not share the doc camera via the external control as students on Zoom will not be able to see.
